

Brian L. Robinson, RN, BSN
blr061758@aol.com

Objective: An exciting position, where opportunities exist to use my education and experience for long term growth and contribution.

Strengths: Proven ability to develop and implement a plan of care for critically ill patients, and communicate effectively with hospital administration, doctors, nurses, and ancillary personnel. Proven ability to learn quickly, work productively, and produce high quality results.

Key Responsibilities and Accomplishments:

Nursing: Trained Cardiovascular Intensive Care Nurse with extensive experience caring for post-operative cardiac bypass and heart transplant patients. Experienced with liver, kidney and pancreas transplant patients. ACLS certified, frequent charge nurse and preceptor.

Management/Marketing: As Clinical Director of Amedisys, and Nursing Innovations, responsible for supervising staff nurses, evaluations, and disciplinary actions. Responsible for marketing our services to hospitals and nursing homes. For both companies, I negotiated the first major contracts with hospitals to utilize our Registered Nurses. I was the first nurse to work at these hospitals and quickly oriented our other nurses to these facilities. As manager of a DME company, I supervised a staff of sales clerks, delivery, and repair personnel.

Case Management: ER Case Manager, responsible for evaluating new admissions using Interqual criteria, advising on level of care, and beginning discharge planning. Responsible for retro-reviews for insurance claims, and retro authorizations. Also responsible for advising patients about resources available from the community, help for the homeless, and people with addictions.
